

Class Rule Changes

International 420 Class Association

Effective date: 2026-03-31

Status: Approved

Amendment One

C.10.4 JIB

(a) USE

Old:

(2) Only one steel luff wire of minimum diameter of 2 mm shall be fitted inside the jib luff sleeve.

Amend to read:

(2) Only one steel luff wire of a minimum diameter of 2 mm **and a line for the Jib head adjustment system** shall be fitted inside the jib luff sleeve.

Reason:

The newly incorporated Jib head adjustment system runs inside the sleeve. It cannot be run. There is a conflict now between these two rules (C10.4(a)(2) and D.4.2(c)(14)
